### Transmission Rebuild Warranty Terms

This warranty is only extended to the customer named on this invoice; all warranty work must be authorized by DC Transmissions and Auto Repair Inc.

Note: If tires are removed, customer is responsible to re torque wheel nuts after 50kms.

#### Warranty does not cover:

- Towing charges
- Causality Loss
- Improper Installation
- Loss of use
- Abuse Charges from other garages or self installation
- loss of earnings
- per diem expenses-car rentals.

#### General Conditions

Defective units must be inspected and replaced by DC Transmissions Inc.

Any dismantling of unit voids warranty.

Modifications to standard equipment or special request from customers to change O.E.M specifications do not have any warranty.

Replacement or repair of unit under warranty does not extend original terms.

Warranty will not be valid if factory approved fluid has not been used.

No warranty on electrical components.

#### Transmission Specific Terms

All Transmission must be purchased complete with torque convertor.

Have transmission checked within 30 days from date of delivery for oil leaks, leaks and shift patterns.

A proper transmission cooler must be properly installed if vehicle is used for towing.
